

Magnetic Car Mount Holder Windshield / Dashboard Suction Mount For Cell Phone GPS

Descriptions :

The magnetic technology is safe to use, and will not harm any smartphone. The carbon steel plates inside the magnetic car mount are ultra thin and designed in a way that it provides powerful holding power as well as absorbing magnetic instability. Along with being safe, it is also powerful, it attracts any phone to it quickly - this is the auto-mount feature. The user can just bring the phone near the mount and it will take it easily, so the user no longer has to fuss about with safekeeping their phone.
