

The Scoot 2 Pedal

The Scoot 2 Pedal™ grows with your child through two milestone stages of play. First your child can learn to scoot for fun on a comfortable contoured seat. When they are ready to learn how to pedal, simply extend the EZ flip-out pedals, and watch them go! The Extra-wide wheels offer a stable ride, and the covered storage bin adds extra fun to the adventure.

Product Features

- EZ flip out pedals, no tools required
- Wide wheels for stability
- Fun covered storage bin
- Ergonomically contoured seat
