

FULL AUTOMATIC WRIST CUFF BLOOD PRESSURE MONITOR, 90 SET MEMORY

Product Description

1. High quality
2. Large screen, easy to read display
3. Ideal for the daily monitoring of blood pressure
4. 90 set of measurement data memory
5. The article warning the state of WHO blood pressure
6. High accuracy: Blood pressure: +/-3%, pulse: +/-5%
7. Pressurization: Air pump Automatic pressurization mode
8. Decompression: Electromagnetic Valve control decompression mode
9. Forced Induction: Semiconductor pressure sensor
10. Intelligent simulation test processor
11. Imported chips and converter, measure accuracy, long lifespan
12. Fast systolic blood pressure, diastolic blood pressure and pulse
13. Measurement Range:
 - Blood pressure: 0-280mmHg
 - Pulse rate: 40-199 times / min
 - Measure interval: 1mmHg

Specification:

General	Material	ABS
	Range of working temperature	+10 to +40 Degree C
	Operating Humidity Range	40-85%
	Storage Temperature	-20 to +50 Degree C
	Storage Humidity Range	15-90%
	Power Supply	2*AAA batteries (not included)
	Rope Length	135 to 195mm (wrist band length range)
	Product Size	70*72*23mm (without wrist band)
	Weight	100g
