### Product description

Two ways to use: 1. Simply connect your cell phone to the Retro Mobil Phone Docking Handset Stand with the supplied 3.5mm plug, then plug the hand-set to either the right side or the left side of the cradle (side, lower front), for convenient right-hand or left-hand use. 2. Use the handset separately by plugging it directly to your phone's or Tablet's 3.5mm audio headset jack for a cool Mobile Retro-Phone look. Virtually eliminate the absorption of most of the phone's electromagnetic radiation by not having to hold your cell phone next to your ear. Powered by your cell phone (no additional power, or batteries needed). Use your cell phones' charger to conveniently charge your phone while it's in the cradle & while you talk. Also works with your favorite Tablet, provided it has a 3.5mm audio jack.
